

MALIK HAIDER ALI

Full Stack Developer

Phone: +92 (336) 0747027 **Email:** malikhaiderali33@gmail.com **Linked in:** <https://www.linkedin.com/in/haid-er/>

Github: <https://github.com/haid-er> **Location:** Lahore **Portfolio:** <https://malikhaider.vercel.app/>

SUMMARY

Full-Stack Developer with 3+ years of experience building scalable applications, AI-powered systems, and production-grade backend platforms. Strong expertise in modern architecture, workflow automation, LLM integrations, and autonomous agent systems using platforms such as OpenAI, Anthropic, and Google. Skilled in designing and delivering high-performance, production-ready solutions with a focus on clean architecture, scalability, reliability, and cost-efficient AI implementation.

TECHNICAL EXPERTISE

Full-Stack Product Engineering, Backend & Platform Architecture, AI Systems & Autonomous Agents, RAG & Vector Search Systems, Cloud Deployment & Production Delivery

Technologies: React.js, Next.js, Node.js, NestJS, TypeScript, Python, PostgreSQL, MongoDB, Pinecone, BullMQ, OpenAI, Anthropic, AWS, Azure, Hostinger, Vercel, Git

WORK EXPERIENCE

Full-Stack Developer (remote)

Sep 2025 - Present

Euthyna (Terra Instinct) - London, UK

- Architecting AI-powered sustainability reporting systems, spanning climate risk, GHG calculations, disclosure gap analysis, and transition planning.
- Designed LLM-driven workflows for structured ESG reporting, including estimation pipelines.
- Built scalable backend platform capabilities including workflow orchestration, RBAC, background processing, and transactional audit logging for enterprise reporting workflows.
- Developed AI-assisted document and data pipelines for extracting and structuring sustainability and corporate-entity information at scale.

Associate Software Engineer (on-site)

June 2025 - Aug 2025

Piron Labs (Pentaloop) - Lahore, Pakistan

- Contributed to Kickstart, a field service management platform for scheduling, dispatching, invoicing, technician operations, and payments.
- Optimized frontend and API usage through lazy loading, reduced unnecessary API calls, and improved module-level loading behavior.
- Reduced platform response time from 27s to 3.5s through webpack optimization, code splitting, compression, and frontend build improvements.

Full-Stack Developer (hybrid)

June 2024 - June 2025

Webox Systems - Lahore, Pakistan

- Built core features for VoodVR, an AI-powered VR video platform for immersive content creation and monetization.
- Developed frontend and backend functionality across dashboards, profile flows, creator workflows, and interactions using React and Node.js.
- Implemented Stripe Connect payments, subscriptions, webhook-based billing flows, real-time chat integration, and contributed to testing and AWS-based deployment workflows.

EDUCATION

Bachelor of Science in Information Technology

Dec 2021 - May 2025

PUCIT - Punjab University College of Information Technology | CGPA: 3.63/4.00

PROJECTS

MotionIQ

github.com/haid-er

- Developed a Human Activity Recognition system with mobile and watch applications for capturing and processing real-time sensor data.
- Integrated RabbitMQ-based messaging and trained ML models on preprocessed sensor data to classify user activities accurately.

AI Lawyer

github.com/haid-er/ai-chatbot

- Built an AI-powered legal assistant for legal Q&A using OpenAI, Pinecone, and retrieval-based workflows to deliver context-aware responses.
- Developed the full-stack application with emphasis on semantic search, structured knowledge retrieval, and production-oriented AI integration.

COURSES & CERTIFICATIONS

- Developing Back-End Apps with Node.js and Express coursera.org/verify/SR8D90BB97KS
Course by IBM over Coursera.org
- Supervised Machine Learning:Regression&classification coursera.org/verify/3YGP1SY6NZDU
Course by DeepLearning.AI and Stanford
- HTML and CSS in depth coursera.org/verify/ATLRBGC7LGWM
Course by Meta over Coursera.org
- React The Complete Guide (incl. redux, redux toolkit)
Course by Udemy

ACHIEVEMENTS

AppFest Competition

Our Team **CodePunks** ranked 8th position in the competition for CMS development.

Best Designer

Achieved best Graphic Designer Credit at PUCIT.

LANGUAGES

- English (Proficient)
- Urdu (Native)
